This action is submitted for prior approval because it uses general transfer authority pursuant to Section 8005, Public Law 106-259, the DoD Appropriations Act, 2001; and section 1001 of Public Law 106-398, the Floyd D. Spence National Defense Authorization Act for FY 2001. This action transfers \$22.0 million from Aircraft Procurement, Air Force (APAF), 01/03, to Research, Development, Test, and Evaluation, Air Force, 01/02, and realigns \$18 million between budget activities within APAF, 01/03. This action meets all administrative and legal requirements of the Congress and the Congress has not denied the items. This action is not reflected in the FY 2002 President's Budget.

Explanation: These funds will continue the Advanced Display Core Processor (ADCP) and Operational Flight Program (OFP). The funds will allow accelerating fielding of the ADCP by 1 year and will provide full air-to-ground data link capability, fiber optic towed decoy, and upgrades to the ECCM capability of the radar. The current systems have reached their limits of processor memory and throughput. The ADCP will replace current systems and provide memory and throughput needed to continue upgrading of the F-15E. This modification will also resolve severe parts obsolescence problems.

Explanation: These funds will procure and install five additional APG-63(V) 1 radar modification kits for the F-15 C/D. The APG-63 (V)1 program provides reliability and maintainability for the F-15C APG-63 radar. This system will also eliminate the parts obsolescence associated with the current system and provide for future growth capability.

Explanation: This is a congressional special interest item. The Congress provided \$400 million to procure, in conjunction with \$25 million of FY 2000 Advance Procurement funding, five F-15E aircraft in FY 2001. Funds are available because APG 70 radars will be provided from current supply stocks as government furnished equipment thereby reducing the total cost of 5 F-15E aircraft to \$385 million.
